BILL OF MATERIALS / DEVELOPMENT BASIS

REF	COMPONENT	MATERIAL / FINISH	COLOR
01	Upper body	Soft leather, smooth matte	#251B1A
02	Toe reinforcement	Firm leather, edge stitched	#262525
03	Removable straps	Matching leather + concealed clip/snap	#251B1A
04	Lining + sockliner	Soft lining over cushioned insole	#F1C5A9
05	Sole	Flexible traction rubber	#3A363B

REMOVABLE STRAP ATTACHMENT DETAIL

Four total attachment points - two ends per strap

REMOVABLE STRAP END

PRESS TO ATTACH

CONCEALED SHOE-SIDE TAB

LOW-PROFILE SNAP / CLIP

Hardware may be finalized as a snap-button or spring clip after prototype testing. It must sit flush, resist accidental release during commuting, and remain discreet when the straps are removed.

DESIGN INTENT

A polished ballet flat that transitions from commuting to work and social plans without requiring a second pair.

CONSTRUCTION NOTES

Two removable instep straps, concealed attachment hardware, cushioned insole, flexible forefoot, edge-stitched toe reinforcement, and slip-resistant tread.

DEVELOPMENT STATUS

Concept tech pack. Last, grading, supplier, leather grade, thickness, finalized clip mechanism, tolerances, and performance testing remain to be confirmed.

USER NEED / PROBLEM STATEMENT

Young urban professionals with unpredictable schedules need footwear that transitions comfortably between commuting, work, changing weather, errands, and spontaneous social plans without forcing a choice between style, support, protection, and versatility - or requiring an extra pair.

FUNCTIONAL REQUIREMENTS

- Secure retention while commuting
- Discreet hardware when straps are removed
- Cushioned all-day support
- Flexible forefoot movement
- Protective toe reinforcement
- Slip-resistant traction
